

# TOP 6 ONLINE SAFETY TIPS

The internet is a great place to learn, play, and connect with friends and family. But it's also important to be safe online. There are many online predators and there is a lot of inappropriate content.

Here are some tips to help you stay safe:

**1. Never give out personal information**

This includes your full name, address, phone number, the school you go to or other details such as passwords and credit card info.

**2. Don't talk to strangers online**

If someone you don't know starts talking to you online, tell a parent or trusted adult. Strangers can create fake identities in minutes, always assume they may be someone else.

**3. Be careful about what you post online**

Once something is online, it can be hard to get rid of it. This can be detrimental to your future goals and plans.

**4. Be aware of your surroundings when you're online**

Don't use your phone in public places where you can't see who is around you.

**5. Report anything that makes you feel uncomfortable or unsafe**

Tell a parent or trusted adult, they will be able to help you figure out what's going on and help support you.

**6. Never send photos to someone you don't know in real life**

Once you send a photo to someone else, they can do whatever they want with it including photo editing to embarrass or scare you.
